TRANSLATION

1. PURPOSE

- This procedure is established to define the authority and responsibility to eliminate the causes of detected non-conformities or other undesirable conditions in order to prevent recurrence.

- This process provides a uniform method for handling non-conformities by the Company.

2. SCOPE

All production and business activities of the Company within the system.

3. DEFINITIONS

1. Nonconforming products are products that do not ensure food safety and quality criteria or do not meet certain product criteria that the Company has planned.

2. Corrective Action: Action taken to **eliminate the cause** of a non-conformity that has **occurred** and **detected** or other non-conformities.

4. CONTENT

4.1 Review of non-conformities & causes of non-conformities

- When significant or systematic non-conformities are detected in the following processes:
 - Production.
 - Transactions with customers.
 - Delivery of products to customers, including customer complaints.
 - Management of distributors and markets.
 - Internal assessment.

The relevant departments are responsible for analyzing to find out the cause of the non-conformities.
